VISSONI™

FINISH CARE INFORMATION

WARNING: Do not clean your VISSONI product with ammonia (Window cleaner), bleach, soaps, acids,abrasives, harsh polishes, harsh cleaners, a coarse surfaced cloth, coarse sponge, or any type of scouring pad. doing so may ruin ypur faucet finish and / or void the warranty.

Thank you for making VISSONI a part of your lifestyle and luxury spa experience. Our products have been created as works of enduring quality and sophisticated design. luxurious finishes need proper care and attention, so in order to understand how to properly cleanyour distinctive luxury finish please refer to the finish care information below:

your VISSONI product can be identified in one of two categories: clear coated finshes or non-clear coated finishes. clear coated finishes are more scratch-sensitive and more reactant to harsh cleaning chemicals than non-clear coated finishes. once you have identified the specific luxury finish of your VISSONI product, please follow the important corresponding care instructions.

CLEAR COATED FINISHES

Polished & Satin 24K Gold: The Karat mark states the percentage of pure gold – 24K is 100 percent gold. As one of the Earth's most precious metals, gold is the most supple and malleable of all metals. Gold-plated faucets scratch easily. To clean, wipe down with a dry soft cloth after each use. Gold surfaces should be coated with a thin layer of non-abrasive carnauba wax or liquid car wax up to 3 or 4 times per year. This will prevent water spotting and water deposit buildup. We recommend using VISSONI's Polish which has been formulated to clean and seal, leaving behind a protective coating that will resist tarnishing and improve water repellency.

Antique Bronze : Antique bronze simulates the antiquity of Old-World craftsmanship with a golden base color and a blend of dark undertones. To clean, wipe down with a dry soft cloth after each use. Antique Bronze should be coated with a thin layer of non-abrasive carnauba wax or liquid car wax up to 3 or 4 times per year. We recommend using VISSONI's Polish which has been formulated to clean and seal, leaving behind a protective coating that will resist tarnishing and improve water repellency

Oil Rubbed Bronze: Oil-rubbed bronze simulates the antiquity of Old-World craftsmanship with its warm, dark brown color and copper undertones. To clean, wipe down with a dry soft cloth after each use. Oil-rubbed bronze should be coated with a thin layer of non-abrasive carnauba wax or liquid car wax up to 3 or 4 times per year. We recommend using VISSONI's Polish which has been formulated to clean and seal, leaving behind a protective coating that will resist tarnishing and improve water repellency.

NON-CLEAR COATED FINISHES

Polished Chrome : chrome plating is extremely reflective, with a rich bluish luster. to clean, wipe down with a dry soft cloth after each use. A non-abrasive all-metal cleaner can then be applied to restore the shine. The surface can also be coated with a thin laye r of non-abrasive carnauba wax or liquid car wax. This will prevent water spotting and water deposit buildup. We recommend using VISSONI's Polish which has been formulated to clean and seal, leaving behind a protective coating that will resist tarnishing and improve water repellency.

Platinum & Satin Platinum: Platinum is the most precious of white metals and is over 20 times rarer than gold. It is also very durable and resists tarnishing. To clean, wipe down with a dry soft cloth after each use. A non-abrasive all-metal cleaner can then be applied to restore the shine. The surface can also be coated with a thin layer of non-abrasive carnauba wax or liquid car wax. This will prevent water spotting and water deposit buildup. We recommend using VISSONI's Polish which has been formulated to clean and seal, leaving behind a protective coating that will resist tarnishing and improve water repellency.
